

SEND Office

This is Mrs Horsfield and Miss Tierney's office where they do their work, use the phone and have meetings. We can only go in here if we knock first.

Our calm room helps us to regulate when we feel angry or upset and this room is empty. Therefore, there is plenty of space. We use the 5-point scale to help us say how we feel and what we need, which can be time alone in here, or a ball to kick.

Sensory Room

We love it in the sensory room. There are colour changing cubes, sensory pads to walk on and sequin frames to help us recognise different textures. It is great when we turn off the lights as it is very dark. We explored light when we were learning about Halloween, making different shapes with snap bands.

Outdoor area

This area is used for outdoor learning and playtimes. Also, it has a very large fish pond and a big sensory tree which we helped to decorate.

Meet the IR staff
