# Number: Multiplication and Division 

| MULTIPLICATION \& DIVISION FACTS |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| FS2 | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
|  | count forwards and backwards in multiples of 2,5 and 10 , up to 10 multiples, beginning with any multiple, and count forwards and backwards through the odd numbers | count in steps of 2, 3, and 5 from 0 , and in tens from any number, forward or backward (copied from Number and Place Value) | count from 0 in multiples of 4 , 8,50 and 100 <br> (copied from Number and Place Value) | count in multiples of $6,7,9,25$ and 1000 (copied from Number and Place Value) | count forwards or backwards in steps of powers of 10 for any given number up to 1000000 (copied from Number and Place Value) |  |
| recall some number bonds to 10, including doubling facts (from place value) <br> Explore and represent patterns within numbers up to 10, including evens and odds (from place value) |  | recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers <br> recognise repeated addition contexts, representing them with multiplication equations and calculating the product, within the 2, 5 and 10 multiplication tables | recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables <br> recall multiplication facts, and corresponding division facts, in the $10,5,2,4$ and 8 multiplication tables, and recognise products in these multiplication tables as multiples of the corresponding number | recall multiplication and division facts for multiplication tables up to $12 \times 12$ and recognise products in multiplication tables as multiples of the corresponding number | secure fluency in multiplication table facts, and corresponding division facts, through continued practice |  |
|  | MENTAL CALCULATION |  |  |  |  |  |
| Explore how quantities can be |  |  | write and calculate mathematical statements for | use place value, known and derived | multiply and divide numbers mentally | perform mental calculations, including |

## Number: Multiplication and Division

National Centre<br>for Excellence in the<br>Teaching of Mathematics

| distributed equally |  | multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods (appears also in Written Methods) | facts to multiply and divide mentally, including: multiplying by 0 and 1 ; dividing by 1 ; multiplying together three numbers | drawing upon known facts | with mixed operations and large numbers |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | multiply and divide whole numbers by 10 and 100 (keeping to whole number quotients); understand this as equivalent to making a number 10 or 100 times the size | Multiply and divide numbers by 10 and 100; understand this as equivalent to making a number 10 or 100 times the size, or 1 tenth or 1 hundredth times the size. |  |
|  | show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot |  | recognise and use factor pairs and commutativity in mental calculations (appears also in Properties of Numbers) | multiply and divide whole numbers and those involving decimals by 10, 100 and 1000 | associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. 3/8) (copied from Fractions) |
|  |  | Know that 10 tens are equivalent to 1 hundred, and that 100 is 10 times the size of 10 ; apply this to identify | Know that 10 hundreds are equivalent to 1 thousand, and that | Know that 10 tenths are equivalent to 1 one, and that 1 is 10 times the size of 0.1 . | Understand the relationship between powers of 10 from 1 hundredth to 10 |

|  |  |  | and work out how many 10s there are in other three-digit multiples of 10 . | 1,000 is 10 times the size of 100 ; apply this to identify and work out how many 100s there are in other four-digit multiples of 100 | Know that 100 hundredths are equivalent to 1 one, and that 1 is 100 times the size of 0.01 . Know that 10 hundredths are equivalent to 1 tenth, and that 0.1 is 10 times the size of 0.01 (linked with above) | million, and use this to make a given number $10,100,1,000,1$ tenth, 1 hundredth or 1 thousandth times the size (multiply and divide by 10,100 and 1,000 ) |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | Apply place-value knowledge to known additive and multiplicative number facts (scaling facts by 10 ). | Apply place-value knowledge to known additive and multiplicative number facts (scaling facts by 100) | Apply place-value knowledge to known additive and multiplicative number facts (scaling facts by 1 tenth or 1 hundredth). |  |
|  |  |  |  | Manipulate multiplication and division equations, and understand and apply the commutative property of multiplication. |  |  |
|  |  |  |  | Understand and apply the distributive property of multiplication. |  |  |
| WRITTEN CALCULATION |  |  |  |  |  |  |
